

iAmKriCE

I am Kimberly Rice, known artistically as KRice, and my work is guided by intuition, life experience, and a deep love for music and the human journey. Each piece reflects gratitude for my journey and the wisdom that continues to unfold as I grow. I'm drawn to symbolism and spirituality, using bold, unapologetic color and conceptual storytelling to say the things many people feel but don't always feel free to express. My work creates space for conversation, visibility, and reflection - and above all, it's about being in flow, creating with purpose, and having the freedom to be fully expressed.

MY ART IS BOLD, COLORFUL, AND UNAFRAID TO START CONVERSATIONS.

My work balances vibrancy with introspection, blending spirituality, emotional depth, freedom, sensuality, and expressive color. Through each composition, I invite the viewer into a moment of reflection — a space to connect with what feels familiar, curious, or awakening within. Every piece carries its own narrative and energetic presence, designed to inspire dialogue and honor the richness of human experience. As an emerging artist, I am proud to share this evolving body of work and remain dedicated to continual growth, exploration, and creative expansion.

KRICE

Take A Look

Take a look inside this collection of some of my selected works from 2025 and 2026 - some of my most exciting creative moments this past year. Each work carries its own energy, story, and invitation to reflect.
